BILL SUMMARY: The act establishes a schedule for teacher certification fees.

ASSUMPTIONS AND METHODOLOGY:

Revenue

SB 1594 establishes a fee schedule for the initial certification, renewal, and extension of all teaching certificates for the State Board of Education. In fact, the State Board of Education adopted such a fee schedule for teacher certification in 1975. The current fee schedule charges \$45 for first time in-state licenses, upgrades, additions, and renewals; \$65 for out-of-state applicants, Junior ROTC, lateral entry, vocational, and provisional licenses; and \$30 for miscellaneous administrative changes. This bill gives statutory authority to what the Board has done administratively up till now.

The bill reflects the Board's intention to raise the fees beginning in FY 1998-99 to fund additional certification specialist positions. The Board proposes to increase the \$45 fee to \$55 and increase the \$65 fee to \$85 as shown in the chart below. The proposed revenue from SB 1594 was included on page 18 of the Governor's Recommended Changes to the 1998-99 State

Budget. Based on FY 1996-97 data, the increased fees will raise an additional \$208,790 in receipts each year.

Expenditure

The additional revenue will be used to add four Certification Specialists (Grade 65) to the Teacher Licensure Section to handle the 6 to 8 week backlog in teacher certification requests. These four positions are requested in the Governor’s Recommended Changes to the 1998-99 State Budget. Both the House and Senate Appropriations Committees included these receipt supported positions in the Appropriations Act of 1998 (SB 1366). The projected budget for these positions is as follows:

	<u>FY 1998-99</u>	<u>FY 1999-00</u>	<u>FY 2000-01</u>	<u>FY 2001-02</u>	<u>FY 2002-03</u>

Total	\$160,000	\$124,948	\$124,948	\$124,948	\$138,948

The salary of a Certification Specialist is budgeted at the minimum level of \$24,308 per year. No increase in salary or benefits is included in the projection, but receipts are sufficient to cover any increases. The first year budget includes one time costs for furniture, computers, and transportation. The budget reflects that the computers will be replaced in four years.
