

# NORTH CAROLINA GENERAL ASSEMBLY

2025 Session

## Legislative Incarceration Fiscal Note

**Short Title:** Modernize Debt Settlement Prohibition.  
**Bill Number:** House Bill 734 (First Edition)  
**Sponsor(s):** Rep. Howard, Rep. Setzer, Rep. B. Jones, and Rep. Liu

### FISCAL IMPACT SUMMARY

Criminal offenses are classified as misdemeanors (Class 3 as the lowest and Class A1 as the highest) and felonies (Class I to Class A). There are three types of legislative changes to offenses that may result in a fiscal impact to the State's criminal justice system: creating a new offense, changing the class of an existing offense, or changing the scope of an existing offense.

This proposed legislation expands an existing Class 2 misdemeanor for debt adjusting to include debt settlement. The Administrative Office of the Courts (AOC) does not have a code for this offense and as a result there is no charge and conviction data. **There is also no data to predict how many individuals may be charged or convicted under the proposed expansion of the Class 2 misdemeanor. Therefore, Fiscal Research is unable to project the fiscal impact** of the proposed legislation on the criminal justice system.

Each additional person charged under the proposed offenses will have a cost to the judicial system and each additional person convicted will have a cost to the correction system. The **cost of one charge and conviction** is listed in the table below, along with the percent of cases that incur those costs at that offense level.

Cost of One Charge and Conviction										
	Prosecution and Defense		Active Sentence				Suspended Sentence			
Offense Class	Admin. Office of the Courts	Indigent Defense Services	DAC - Confinement		DAC - Post-Release Supervision (PRS)		DAC - Probation			
Misdemeanor	Cost	Cost	Rate	Cost	Length (Mo.)	Cost	Length (Mo.)	Rate	Cost	Length (Mo.)
2	\$183	\$254	Active sentences for misdemeanor convictions are served in County jail.			Misdemeanants do not receive PRS.		75%	\$3,650	13
Note: Court costs reflect the average cost per disposition. Costs for active sentences, probation, and post-release supervision reflect the total cost of the sentence or supervision period. Costs to the Statewide Misdemeanant Confinement Program (SMCP) only occur for active sentences > 90 days and impaired driving.

## FISCAL ANALYSIS

### Bill Summary:

Under G.S. 14-424 (Engaging, etc., in business of debt adjusting a misdemeanor) it is currently a Class 2 misdemeanor to engage in, or offers to or attempts to, engage in the business or practice of debt adjusting, or acts, offers to act, or attempts to act as a debt adjuster. This proposed legislation recodifies the statute as G.S. 75-153 (Debt adjusting and debt settlement a misdemeanor) and adds the offense of engaging in, offering to engage in, or attempting to engage in debt settlement. The definition of person within the Article is also expanded to include "other entity." Thus, the proposed legislation would **expand the scope of an existing Class 2 misdemeanor**.

The Administrative Office of the Courts does not have a specific offense code for violations of G.S. 14-424 which is some indication that the offense is infrequently charged and/or infrequently results in convictions. It is unknown how many additional convictions may result from the proposed broadening of the current statute. **Due to a lack of data, Fiscal Research is unable to project the fiscal impact of the proposed legislation on the criminal justice system.**

### Capital Expenses

Capital costs emerge when prison bed demand exceeds capacity. Based on the most recent prison population and bed capacity projections from the Sentencing and Policy Advisory Commission (SPAC), the State will have sufficient prison beds available beyond the five-year fiscal note horizon. Therefore, Fiscal Research anticipates there will be **no additional prison capital requirements** as a result of this proposed legislation.

### Operating Expenses

The table in the Fiscal Impact Summary lists the costs specific to the charge or charges included in this proposal.

## **TECHNICAL CONSIDERATIONS**

---

- Offense changes are typically effective on December 1. FRD assumes that costs incurred in the first year to the judicial and correction systems would be less than annualized costs due to lag time in charges and convictions.
- This estimate assumes that expanding existing or creating new criminal offenses produces no deterrent or incapacitative effect on crime rates. Likewise, FRD assumes no deterrent effects for any modifications to criminal penalties. The estimates in this Incarceration Note make no assumptions about the larger impact on crime rates or costs to society or the State.
- This estimate makes no prediction regarding the likelihood that a prosecutor will charge an offense based on any proposed increases or decreases to the offense class level. This estimate also does not attempt to predict the impact of offense class changes on plea negotiations. FRD assumes the proposed offense class is charged and convicted at the same rate as the prior level.
- For reference, Appendix A to this document shows the costs per charge/conviction for each class of offense in North Carolina.

## **LEGISLATIVE FISCAL NOTE – PURPOSE AND LIMITATIONS**

---

This document is an official fiscal analysis prepared pursuant to Chapter 120 of the General Statutes and rules adopted by the Senate and House of Representatives. The estimates in this analysis are based on the data, assumptions, and methodology described in the Fiscal Analysis section of this document. This document only addresses sections of the bill that have projected direct fiscal impacts on State or local governments and does not address sections that have no projected fiscal impacts.
