FISCAL IMPACT SUMMARY

Criminal offenses are classified as misdemeanors (Class 3 as the lowest and Class A1 as the highest) and felonies (Class I to Class A). There are three types of legislative changes to offenses that may result in a fiscal impact to the State’s criminal justice system: creating a new offense, changing the class of an existing offense, or changing the scope of an existing offense.

This proposed legislation would create **two new Class 2 misdemeanors** related to individuals under the age of 21 acquiring or possessing kratom products or hemp-derived consumables. Because these are new offenses, there is no data to predict how many individuals may be charged or convicted. **Therefore, Fiscal Research is unable to project the fiscal impact** of the proposed legislation on the criminal justice system.

Each additional person charged under the proposed offenses will have a cost to the judicial system and each additional person convicted will have a cost to the correction system. The **cost of one charge and conviction** is listed in the table below, along with the percent of cases that incur those costs at that offense level.

Cost of One Charge and Conviction										
Offense Class	Prosecution and Defense		Active Sentence				Suspended Sentence			
	Admin. Office of the Courts	Indigent Defense Services	DAC - Confinement			DAC - Post-Release Supervision (PRS)		DAC - Probation		
Misdemeanor	Cost	Cost	Rate	Cost	Length (Mo.)	Cost	Length (Mo.)	Rate	Cost	Length (Mo.)
2	\$183	\$254	Active sentences for misdemeanor convictions are served in County jail.			Misdemeanants do not receive PRS.		75%	\$3,650	13
<i>Note: Court costs reflect the average cost per disposition. Costs for active sentences, probation, and post-release supervision reflect the total cost of the sentence or supervision period. Costs to the Statewide Misdemeanant Confinement Program (SMCP) only occur for active sentences > 90 days and impaired driving. The triangle symbols (▲) represent change, plus and minus (+/-) symbols reflect the increase or decrease in cost or time from the current to proposed changes in charge levels.</i>										

FISCAL ANALYSIS

This bill makes it unlawful for any person under the age of 21 to possess a kratom or hemp-derived consumable product. Accordingly, the proposed legislation makes it a Class 2 misdemeanor for anyone under the age of 21 to possess these products, and also a Class 2 misdemeanor for anyone who knowingly sells or distributes these products to a person under the age of 21.

Because these are new offenses, there is no historic data available for cost projections, and as such **Fiscal Research is unable to provide any cost projections for this bill.** Please refer to the table in the Fiscal Impact Summary for the average costs of Class 2 misdemeanors.

In addition to setting misdemeanor penalties, this bill would also set fines according to the number of times someone offends under these charges. A first offense carries a \$500 fine, a second offense carries a \$1,000 fine, and a third or subsequent offense carries a \$1,500 fine. Per the State Constitution, fine proceeds must remain in the collection county to support public schools. As such, **any fine collections under this proposed legislation would not impact the State's general fund revenue.**

Capital Expenses

Capital costs emerge when prison bed demand exceeds capacity. Any active sentence time for a misdemeanor conviction is served in county jail rather than State prison. Therefore, Fiscal Research anticipates there will be **no additional prison capital requirements** as a result of this proposed legislation.

TECHNICAL CONSIDERATIONS

- Offense changes are typically effective on December 1. FRD assumes that costs incurred in the first year to the judicial and correction systems would be less than annualized costs due to lag time in charges and convictions.

- This estimate assumes that expanding existing or creating new criminal offenses produces no deterrent or incapacitative effect on crime rates. Likewise, FRD assumes no deterrent effects for any modifications to criminal penalties. The estimates in this Incarceration Note make no assumptions about the larger impact on crime rates or costs to society or the State.
- This estimate makes no prediction regarding the likelihood that a prosecutor will charge an offense based on any proposed increases or decreases to the offense class level. This estimate also does not attempt to predict the impact of offense class changes on plea negotiations. FRD assumes the proposed offense class is charged and convicted at the same rate as the prior level.
- For reference, Appendix A to this document shows the costs per charge/conviction for each class of offense in North Carolina.

LEGISLATIVE FISCAL NOTE – PURPOSE AND LIMITATIONS

This document is an official fiscal analysis prepared pursuant to Chapter 120 of the General Statutes and rules adopted by the Senate and House of Representatives. The estimates in this analysis are based on the data, assumptions, and methodology described in the Fiscal Analysis and Technical Consideration sections of this document. This document only addresses sections of the bill that have projected direct fiscal impacts on State or local governments and does not address sections that have no projected fiscal impacts.
